

Volleyball Match Stats Sheet

Team: _____ **Opponent:** _____ **Date:** _____ **Set / match:** _____

[illegible]

Hitting % = (Kills – Attack errors) ÷ Attempts, written to three decimals, e.g. $(15 - 3) \div 40 = .300$. Attack errors are attacks hit out, into the net, or blocked straight down for a point.

Kill % = Kills ÷ Attempts.

Passing average (0–3 scale) = $(3 \times \text{perfect} + 2 \times \text{good} + 1 \times \text{poor} + 0 \times \text{aced}) \div \text{total passes}$. Pass 3 = perfect pass to the setter, 2 = setter can set most options, 1 = setter has one option, 0 = ace or overpass.
