

Serve-Receive Pass Rating Sheet

Rate every pass 0–3: 3 = perfect pass to the setter, 2 = setter can set most options, 1 = setter has one option, 0 = ace or overpass.

Team: _____ **Date:** _____ **Drill / match:** _____

[illegible]

Passing average = $(3 \times \text{perfect} + 2 \times \text{good} + 1 \times \text{poor} + 0 \times \text{aced}) \div \text{total passes}$, to two decimals.
