

Volleyball Rotation Worksheet

A blank worksheet for any six-player lineup. Fill in the service order first: the player in position 1 serves first, then 2, 3, 4, 5 and 6. After each side-out everyone moves one position clockwise. A position is a player's place in the service order: at the serve, the receiving team must keep that order with its neighbours (FIVB 7.4), but players do not have to stand in a fixed box. In each rotation, write who holds each position in the small grid, then draw where they actually stand on the court.
